DURANGO

Reminiscent of the natural world, Durango's patterning recalls the bark of the sycamore tree. A towering presence with a lifespan of centuries and ubiquitous near the foothills of the Sierra Madre Oriental, it - like Durango - is adorned with organic, amorphous, and irregular shapes. Ebbing and flowing across tree trunks - and beautifully designed rooms, whether rising from woods, resting near waters, or reminding inhabitants of the wider world - it suffuses any space with a sense of the primitive. The essential. And the undeniably evocative.
